

SUMMARY

As a Front-End Developer with **1.8 years** of experience, I specialize in building visually appealing and highly functional user interfaces. Proficient in HTML, CSS, JavaScript, React.js, and Next.js, I focus on responsive design, usability, and performance to deliver seamless, engaging web experiences. I'm passionate about writing clean, scalable code that balances aesthetics with functionality—enhancing both user satisfaction and business outcomes.

EXPERIENCE

Junior Software Engineer

Netlabs Global

08/2023 - 12/2024 Bangalore, India

A company that focuses on improving software solutions

- Developed user-friendly front-end interfaces for a Hospital Equipment **Revenue Cycle Management (RCM)** system, helping improve equipment tracking, maintenance efficiency, and patient safety.
- Designed interactive dashboards for an **Invoice Management System (IIMS)**, enabling real-time invoice tracking and financial analytics for better decision-making.
- Implemented reporting tools in a **Vendor Management System (VMS)** to monitor KPIs, optimize vendor relationships, and mitigate risks.
- Built inventory dashboards for an **Inventory Management System (IMS)**, providing real-time stock visibility and preventing shortages or overstock.

Front-end Developer

The Marble Jar

01/2025 - Present Kochi, India

A platform designed for cafés and restaurants

- Developed responsive food ordering and table booking websites For **cafés and restaurants**, ensuring seamless user experience across mobile, tablet, laptop, and TV screens.
- Built a fully responsive **e-commerce** website, optimizing design and functionality for all devices to enhance user engagement and conversions

PROJECTS

Revenue Cycle Management (RCM)

08/2023 Bangalore, India

Developed user-friendly front-end interfaces for a Hospital Revenue Cycle Management (RCM) system, focusing on patient-to-insurance company settlement and claims management, utilizing React.js and Next.js

- Significantly reduced post-discharge patient waiting time for insurance clearance.

Invoice & Inventory Management Systems (IIMS/IMS)

12/2023 Bangalore, India

Designed interactive dashboards for real-time invoice tracking and built inventory dashboards for stock visibility, preventing shortages and optimizing financial analytics with React.js.

- Enabled better financial decision-making and prevented stock shortages/overstocking

Vendor Management System (VMS) Tool

02/2024 Bangalore, India

Implemented reporting tools for a VMS to monitor KPIs, optimize vendor relationships, and mitigate risks, leveraging front-end development skills.

- Streamlined vendor performance oversight and strengthened supply chain stability.

EDUCATION

BTech In Electrical Engineering
