A Sainath Patro

Front-end-Developer

As a seasoned Front-End Developer with six months of hands-on experience, I possess a deep understanding of web technologies and a proven track record of creating visually appealing and highly functional user interfaces. My proficiency in HTML, CSS, and JavaScript, React.js, coupled with my keen eye for design and usability, enables me to craft seamless and engaging online experiences

EDUCATION

B. Tech In Electrical Engineering IGIT SARANG

08/2018 - 05/2022

Talcher, Odisha, India

WORK EXPERIENCE

Junior Software Engineering Netlabs Global It services

12/2023 - Present

Bangalore, India

Achievements/Tasks

- ▣ **Revenue Cycle Management (RCM)** Developed intuitive and user-friendly front-end interfaces for a Hospital Equipment Revenue Cycle Management (RCM) System, enhancing equipment maintenance efficiency and ensuring optimal patient care and safety.
- ▣ **Invoice Management System (IIMS)** Designed and implemented interactive dashboards and reporting tools within the IIMS, providing real-time insights into invoice status, payment tracking, and financial analytics, resulting in improved decision-making and resource allocation.
- ▣ **Vendor Management System (VMS)** Implemented intuitive dashboards and reporting functionalities within the VMS, enabling stakeholders to monitor vendor performance metrics, track key performance indicators (KPIs), and make data-driven decisions to enhance vendor relationships and mitigate risks.
- ▣ **Inventory management System(IMS)** Designed and implemented intuitive inventory dashboards and reporting tools within the IMS, providing real-time visibility into stock levels, product movement, and inventory trends, empowering stakeholders to make informed decisions and prevent stockouts or overstock situations.

ACHIEVEMENTS

Responsive Design Excellence

Created responsive layouts that seamlessly adapt to various devices, contributing to a Z% increase in mobile user engagement and user satisfaction.

UI Library Integration

Successfully integrated a UI library/framework (e.g., React, Angular, Vue.js), leading to faster development, improved code organization.

Component Reusability

Developed reusable UI components that streamlined development across projects, resulting in a X% reduction in duplicated code and improved consistency.

Client Communication

Effectively communicated technical concepts to non-technical stakeholders, ensuring alignment and satisfaction with project objectives.
